Directions...

The Sandveld Conservancy is easily reached with a normal vehicle; during the rainy season it is however advisable to choose a vehicle with a high wheel structure, since the roads are not always in a good condition.

Travelling from Windhoek, Namibia's Capital, a trip via Okahandja direction Hochfeld and Otjoserondou will take about 3 hours (250km). Arriving from Otjoserondou the stretch is about 200km long.

Great caution is vital, especially when driving at night. Hazards such as uneven gravel roads and game as well as livestock on the road must be taken into consideration.

Feel free to [contact us](#) for any more information and further directions.
